Cutting Films & Strapping

Compact 'Swanneck' Ergonomic Pull Action

When the cut action is from top to bottom or from right to left.

Plastic body covered with synthetic rubber.

Versatile Swanneck :

twin bladed head with tape slitting insert and auto-retracting rear blade

Multifunction knife:

With twin blades in the head :

- Cutting straps, strips of plastic & textile,
- Cutting Films (roll bag....)

With serrated metal insert:

- Cut adhesive packaging tape.

With the auto-retracting rear blade :

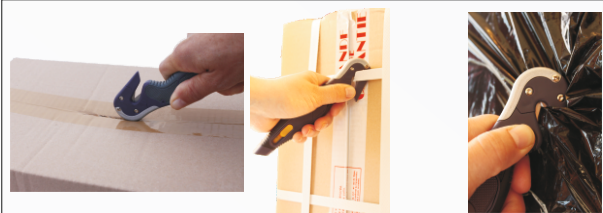

- for cutting of general materials.

Pull Action Swan Neck to suit a cut action that is :

- from top to bottom,
- or right to left.

Twin blades in the head = scissors effect = excellent cutting efficiency !

Excellent Grip :

- the ergonomic handle closely fits the hand.

Very Comfortable to Use :

- the flexible synthetic rubber coating limits muscle fatigue by reducing the clamping forces needed.

Safe Knife :

- Rear blade auto-retracts when the slider is released at the end of the cut.
- Narrow opening: limits access to the 2 head blades.
