

Innovation at the right price

## User information sheet : ERG 052 / ERG 152

### I) Principle use (as a safety knife).

Slide the slider to deploy the blade.	
During the cut ensure the slider is released (the blade is kept deployed by friction of the material being cut).	
Thus when exiting the material (as the slider is not held out) the blade automatically retracts safely.	

### II) Use as a cutter = Length of deployed blade is fixed

The ERG 52 and ERG 152 can be used as cutters (without automatic retraction) for this, simply:

Loosen the knob and slide the blade to the desired length

Tighten the knob, your cutter is ready!

ERG 052 / ERG 152

#### III) Changing the blade

**These safetyknives are semi-ambidextrous :**

The knives can be used by right & left-handed users (although ergonomically suited to RH use)  
Invert the blade for left hand use

<p><b>1</b></p>  <p>Loosen the knob</p>	<p><b>2</b></p>  <p>Remove the rear block</p>	<p><b>3</b></p>  <p>Drag the cursor pad back</p>
<p><b>4</b></p>  <p>Remove the used blade</p> <p>Position the new blade</p>	<p><b>5</b></p>  <p>Reintroduce the slider</p>	<p><b>6</b></p>  <p>Tighten the knob, the knife is ready!</p>

#### IV) Main applications

 <p>★★★★</p>	 <p>★★★★</p>	 <p>Simple Cannelure</p> <p>★★★★</p>	 <p>Double Cannelure</p> <p>★★★★</p>	 <p>Triple Cannelure</p> <p>★★★★</p>
<p>Simple cardboard up to 2mm thick.</p>	<p>Corrugated packing...</p>	<p>Simple corrugated cardboard 4mm thick.</p>	<p>Double fluted cardboard up to 8mm thick.</p>	<p>Cardboard Triple grooves up 12/15mm thick</p>

 <p>ERG 052 and ERG 152 can be used with a hook blade</p>	 <p>★★★★</p> <p>Straps, plastic foils composites, textiles with the hook blade.</p>	 <p>★★</p> <p>Stretch film thickness up to 30µm with the hook blade.</p>	 <p>CS 052 and CS 152 can be used with a hook blade</p>
