User information sheet :
 ERG 058 / ERG 158

ERG 158 with Aluminium body

ERG 058 with Zamac body

I) Principle use (as a safety knife).

<p>Slide the slider to deploy the blade.</p>	
<p>During the cut ensure the slider is released (the blade is kept deployed by friction of the material being cut).</p>	
<p>Thus when exiting the material (as the slider is not held out) the blade automatically retracts safely.</p>	

II) Use as a cutter = Length of deployed blade is fixed

The ERG 058 and ERG 158 can be used as cutters (without automatic retraction) for this, simply:

1

Loosen the knob and slide the blade to the desired length

2

Tighten the knob, your cutter is ready!

ERG 058 / ERG 158

III) Changing the blade

These safetyknives are semi-ambidextrous :

The knives can be used by right & left-handed users (although ergonomically suited to RH use)
Invert the blade for left hand use

<p>1</p>  <p>Loosen the knob</p>	<p>2</p>  <p>Remove the rear block</p>	<p>3</p>  <p>Drag the cursor pad back</p>
<p>4</p>  <p>Remove the used blade Position the new blade</p>	<p>5</p>  <p>Reintroduce the slider</p>	<p>6</p>  <p>Tighten the knob, the knife is ready!</p>

IV) Main applications

 <p>★★★★</p> <p>Simple cardboard up to 2mm thick.</p>	 <p>★★★★</p> <p>Corrugated packing...</p>	 <p>★★★★</p> <p>Simple corrugated cardboard 4mm thick.</p>	 <p>★★★★</p> <p>Double fluted cardboard up to 8mm thick.</p>	 <p>★★★★</p> <p>Cardboard Triple grooves up to 12/15mm thick</p>
 <p>ERG 058 and CERG 158 can be used with a hook blade</p>	 <p>★★★★</p> <p>Straps, plastic foils composites, textiles with the hook blade.</p>	 <p>★★</p> <p>Stretch film thickness up to 30µm with the hook blade.</p>	 <p>ERG 058 and ERG 158 can be used with a hook blade</p>
